Hi Karen,

Table 3 of the WQCP is actually just a more specific discussion about the content of the Scientific Basis report. I'm wondering about the vision for which standards may be modified, removed, or added. I'd also like to discuss when in the process recommendations for monitoring, assessment, and science are addressed.

Last, we should add a topic to briefly discuss the recent draft report USGS & EPA released (attached) and the section that describes "flexible, nonprescriptive framework to quantify flow targets to protect aquatic life from the effects associated with flow alteration".

Thanks Erin. So that we are better prepared, what are the specific discussion points for the last two bullet points, Table 3 of the WQCP and monitoring, assessment, and science?

Karen

Hi Karen,

Thank you for the message. Here are the things I'd like to discuss this coming Monday about Phase II of the WQCP update. I'm looking forward to it.

- Agency coordination & goals
- Scientific Basis Report – content & schedule
- Table 3 of the WQCP
- Monitoring, assessment, & science (if there is time)

Hi Erin,

Could you send over a list of discussion points that you'd like to cover at Monday's meeting?

Thanks,

Karen
